We're working to reduce the stigma and barriers associated with dementia, and to make Redbridge a Dementia Friendly Community. We can't do this without the support of people who live and work in the borough. We want local business leaders, health and social care professionals and local residents to join us at this event.

The conference is free and you can phone the Alzheimer's Society on 0208 556 8171 to book a place.
